The Summer Transportation Institute (STI) is a summer program hosted by the Engineering Student Services department at the University of New Mexico. Current high school sophomores and juniors are eligible to apply for this program which is supported by the U.S. Department of Transportation.

Selection Criteria

Participants of the STI Program will be selected based on the following criteria:

› Students must be enrolled in a recognized secondary school
› Students must be a current high school sophomore or junior
› Timely submission of complete application packet

Application Packet

The completed application packet must include the following:

› Completed and signed application
› A personal statement (400-500) words explaining why the student wants to be in the program
› A letter of recommendation from a teacher and high school counselor
› A copy of current transcript (unofficial)
› A copy of standardized test scores (ACT, SAT), if available

Applications must be received by the 2nd Friday in April of each year

Visit our website at http://www.unm.edu/~sti/

The objective of the STI program is to inform the students about the array of job opportunities in the transportation industry. The aim of the program is to encourage students to pursue these careers and to provide workshops that will foster techniques/skills for academic success. The program curriculum will place emphasis on the major modes of transportation in the southwest region including land, rail and air.
