About

The Department of Electrical and Computer Engineering at The University of New Mexico is internationally recognized for its excellence in research. We will give you all the tools you need to create your career in this ever-changing industry.

Accredited Innovative Programs

Along with our ABET-accredited undergraduate programs in electrical engineering and computer engineering, we offer a shared-credit option that allows students to complete a bachelor’s and master’s degree in five years, and a dual-degree program where students can earn both an engineering degree and a degree from Anderson School of Management.

A Future

Our graduates are employed with companies like Apple Inc., Microsoft Corp., Google, Motorola, Honeywell International, Sandia National Laboratories, Intel Corp., Nokia, and NASA.
UNM is the only university in New Mexico to receive a Carnegie Institutions designation of R1: Doctoral Universities Highest Research Activity. It is located in Albuquerque, New Mexico, a culturally-diverse city surrounded by the Sandia Mountains and featuring 310 days of sunshine a year. It is also home to Sandia National Laboratories and the Air Force Research Laboratory, providing our students with many employment and research opportunities.

Areas of Study
- Digital Systems
- Electromagnetics
- Microelectronics
- Optics
- Power/Energy Systems
- Signals and Controls
- Computer Engineering
- Hardware
- Software

UNM is Affordable!
Discounts for a UNM degree are offered to students from every state! Find out more at define.unm.edu/affordable.

The School of Engineering also administers a large number of scholarships.
