

LEARN TO SAVE A LIFE

CPR training for the School of Engineering

JULY 31

10 a.m.-noon

Centennial Engineering
Center's Stamm Commons

Project Heart Start is offering a free training for faculty, staff, and students, who will learn the following skills:

- How to perform compression-only CPR
- How to use an automated external defibrillator (AED)
- Recognize signs of a heart attack
- How to save a choking victim
- “Stop the bleed” training
- Learn about New Mexico’s Good Samaritan Law
